YOUR CHAIRMAN SAYS

"Welcome OM—it's sure fb to cu agn after all these yrs. Hrs hpg u enjoy urself while wid us es eat plenty uv trky at t bnqt. Bet u will never c anything so funny agn as the "kick em high revue'." 73, WØTLE

JOHN FORD—WTCN—OUR MC

John did so much to make our last MID-AMERICAN at the old West Hotel such a success. He will be toastmaster at the banquet.

SEV WIDMAN—WMIN

Will spin platters for the Friday eve. mixed party in the Jr. Ball Room. WMIN will broadcast Sev's program direct from the Nicollet at 11:00 P. M.

SPEAKERS ON THE TECHNICAL PROGRAM

Bob Hall—WØCRO—Stark Radio Supply Co.—Will discuss "Grid Dip Oscillators and their use around the shack."

Webb Soules—W9DCM—Electrovoice, Inc.—Webb hails originally from Minneapolis, we will enjoy his discussion of microphones.

Maury Feldman—Standard Transformer Corp.—Designs all of Stancor's kits. Will talk on amatuer transmitter design.

Don Murray—Federal Communications Commission—The "RI" fellows, will hold forum on regulations. Ham ticket exams will be held all day Friday at his St. Paul offices.

G. L. Dosland—WØTSN—ARRL Director—Wants your opinion on affairs of Ham Radio. "Dos" is the guy who needled us into putting on this shindig for you.

Ward Jensen—WØTLE—Lew Bonn Co.—"The lowsy engineer" has been busy with a single sideband rig and will try to explain how it works—maybe demonstrate.

Manly Youngberg—E. F. Johnson Co.—Manly's talk on Tank Circuits and Coupling Criteria will be timely and interesting,

Boyd Phelps—WØBP—Phelps Precision Laboratories—Beep can measure your frequency to a gnat's eyebrow and will tell how he does it.

Harry Harrison—Motorola Corp.—Will give technical talk of amatuer interest.

Fred Melius—WØECU—Northwestern Vocational Ins.—Will lecture and discuss Amatuer Television Transmitting Equipment, especially sync. generators and the 5527 Iconoscope tube.

Dr. W. G. Shepherd—University of Minnesota—Presents an interesting demonstration and lecture on microwaves.

Josh Premak—Communications Specialties Co.—Josh has some interesting data and designs of audio filters for amatuer use.
